

XO Solar Impractical for classrooms

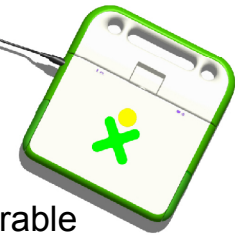

- Children at school during the day, the best time for solar charging
- Students and teachers should be shaded, not exposed
- XO Solar cable is too short to provide both solar power and a shaded work area

XO Solar

Requires direct sun

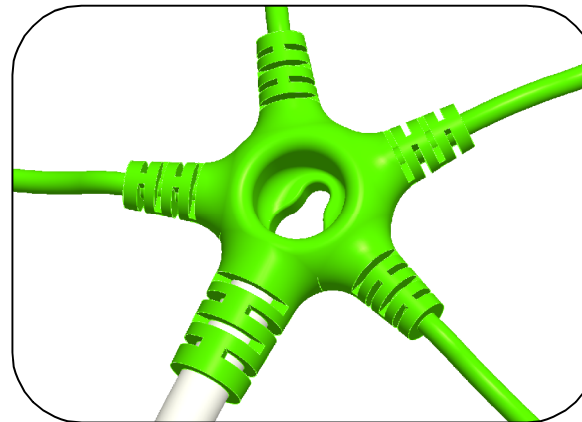

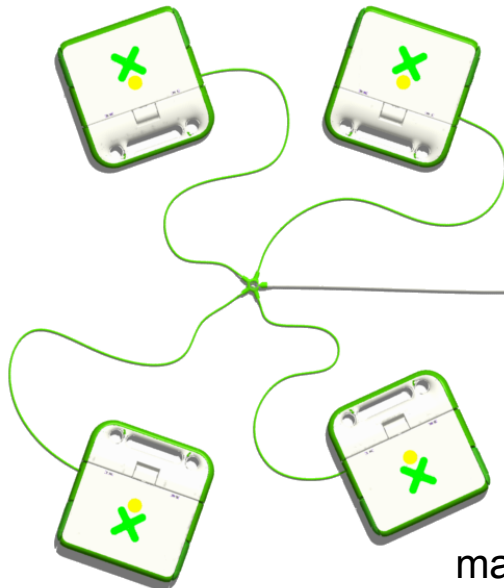

Fixed Length : 1.8m

Shade desirable

DC Power Share Utilise XO Solar throughout the day

Classroom
(Shaded)

Long Cable (8m)

XO Solar panels can be left outside, generating maximum power while students and teachers work inside

Outdoors
(Sunny)
