**SUPPORT LETTER**

This communiqué serves as a response to your letter dated 23 March 2009, requesting our office to furnish you with a support Letter for the “One Laptop per Child”. The importance of the involvement of the OLPC team from the University of Namibia, University of Illinois, and London School of Hygiene and Tropical Medicine at Mupewa cannot be overemphasized. IT literacy is an area which our Ministry want to develop but shortage of ICT facilities and human resources hampers the effort. Your proposal to involve one our school in the OLPC activities will be a blessing to the region and the region give full support of this very valuable initiative. We believe this project will be a helping hand to Mupewa Primary School. We as the region support your initiative and will be glad to provide assistance as well as oversight of the project after you have left. Our office is ready to receive the 230kg shipment.

Yours Faithfully

**MRS ESTHER A. NGHIPONDOKA  
REGIONAL DIRECTOR**
