The Coordinator,
OLPCorps AFRICA

RE: OLPCorps CALIFORNIA STATE UNIVERSITY SAN BERNARDINO NIGERIA TEAM

I write to inform you that Vision Nursery and Primary School, Mararaba, Karu, Nasarawa State, Nigeria is aware of the proposal on OLPC Africa by California State University San Bernardino Nigeria Team.

The schools have a population of Four hundred (400) students in Primary One to Primary Six in the age range of between Six to twelve years old. We have a team of technical experts in the fields of Computer studies and ICT.

We approve of the project and we are prepared to support it. The schools have enough financial resources to support and sustain the project to its completion.

The One Laptop Per Child project as a learning aid is a welcome innovation and we embrace it whole-heartedly.

Yours Sincerely,
Agbo Innocent
(Principal)
