

To: Entrepreneurs without Borders Team

Below is the e-mail I received from Lewis Kamwithi. He is a young preacher with a heart for young people and is trained in computers. We expect him to teach computers when we open are own secondary school.

Carl Burkyble  
Caring for Kenya Director

-----

Hi Carl,

I would believe that God has been good to you, your family and all American brethren. All has been good here despite all hardships we are facing. We thank God for continued hope we have in him.

I would take this chance to thank you and all other involved people there who are making so much efforts to positively change people's lives here. I would thank, recognize and appreciate the efforts you have employed towards the above mentioned. Just as you had mentioned, the idea really excites me and I would love to be involved in making it successful. Thanks for the confidence you have shown in me.
