Hetosa Farmer's Cooperative Union Ltd

To ONE LAPTOP PER CHILD

Ref. No. HFCU/17/352/01
 Date 11/04/09
 GUYSSA
 Date

Hetosa Farmer cooperative Union is voluntarily stable by five primary cooperative in Arsi Zone on 23 Februar 1999. Now, we have total members of 27659 farmers.

Major activities of our union are: Agriculture input distribution, provision of better market access and information for farmers, expanding education in farmers' area and credit service for farmers.

Your project candidate team members, Demerew K. Tesfaye and Dagmawi S. Tesfa, proposed to deliver 100 OX laptops to the farmers' children and asked our support.

We strongly believe that the rural community especially poorest children located in our region benefit from your project. Your project helps to create new educational opportunities to learn, share, collaborate as well as connect to the world for brighter future of the world.

Hence, as your team members (Dagmawi s. Tesfa & Demerew K. Tesfaye) request, we are ready to provide continuous financial support and technical support by organizing Adama University, Asella Campus. Furthermore, we are ready to follow up and monitor the project for its sustainability.

Hetosa Farmers cooperative Union (HFCU) wishes a success to OLPCORPS project and its benefit for farmer's children. We would like to inform you that our office is open for any kind of questions regarding our support.

With Regards,

Mohamed Mamiya

Dupty General Manager
