

ARSI FARMERS COOPERATIVE UNION

Date: 2009-03-20

To ONE LAPTOP PER CHILD

We strongly believe that the rural community especially poorest children located in our region benefit from your project. Your project helps to create new educational opportunities to learn, share, collaborate as well as connect to the world for brighter future of the world.

Hence, as your team members (Dagmawi s. Tesfa & Demerew K. Tesfaye) request, we are ready to provide continuous financial support and technical support by organizing Adama University, Asella Campus. Furthermore, we are ready to follow up and monitor the project for its sustainability.

Arsi Farmers cooperative Union (AFCU) wishes a success to OLPCORPs project and its benefit for farmer's children. We would like to inform you that our office is open for any kind of questions regarding our support.

With Regards,

Mohamed Mamia

Dupty General Manager
