MOTTO: INNOVATIVE AND QUALITATIVE EDUCATION .

Date: March 18, 2009.

Bucknell OLPC

Dear OLPCorps Organizers,

The management, staff, teachers, students, and pupils of Samflora Academy, Umariam, Obowo L.G.A, in Imo State of Nigeria are extremely interested in participating in the selection process relative to this charitable exercise of giving laptops for the use of the children of this academy.

We will ever remain grateful if our school is favorably chosen for this exercise, and promise that the laptops will be used accordingly to the benefits of the children of this academy.

Samflora Academy is located in a rural setting with the objective of providing the children of the community innovative and qualitative ultra-modern education. All the levels of the academy i.e. nursery, primary, and secondary schools are government-approved with 200 pupils and students and about 100 of them are within the ages of 6-12 years of age.

Besides the public supply of electric power, the academy has a standby generator to ensure supply of power as needed. The academy is also wired for Internet services with subscription to Internet providers. This Internet service is constant and will still be used after your representatives leave.

We pledge and promise that your representatives who will come from America to execute this program will be completely protected and catered for throughout their trip. We guarantee they will enjoy their experience in Nigeria.

In order to ensure the sustainability of this project after your representatives leave, we have a paid computer technician that will work with them while they are there, as well as maintaining and repairing the laptops while they are gone. The school also has sufficient or adequate storage facilities, where the laptops will be secured, stored, and safeguarded. The school will also be financially involved in the maintenance of the laptops.

Lastly, this noble charitable gesture will help the children of this academy in no small measure and will surely enhance their abilities to have access to the rest of the world through the Internet and will also facilitate their studies. This will also be of a great benefit to the children of Samflora Academy and the community as a whole.

We are grateful and appreciative of your decision to grant us the opportunity to be a part of this noble exercise.

Sincerely Yours,
Barrister Odinakachi Samuel Anyanwu.
(Proprietor of Samflora Academy)
