Test Cases Summary	
Total Executed	0
Pass	0
Fail	0
On Hold	0
Not Executed	0
Not Applicable	0

Test Case ID	Category	Feature Description	Prerequisite	Test Description	Input Data	Expected Result	Number Of TC combination	Actual Result	Status (Pass/Fail)	Defect Id
1. Verify the boot success for XO-1 without GNOME										
1.1. Verify the plugging external items and boot										
BOT_1.1.1	FUN	Verify the boot with plug some external items (Ex:Keyboard,Mouse,USB,Dongle,power)	1.OLPC must be power off	1.Plug the external items 2.Press power button	Verify the plugging external items and boot for XO-1 without GNOME	System should behavior as mentioned in the validation table expected result.	6			
1.2 Verify without plugging external items and boot										
BOT_1.2.1	FUN	Verify the boot without plug any external items (Ex: Keyboard, Mouse, USB, Dongle, power)	1.OLPC must be power off 2.OLPC battery must be charged	1.Press power button		1.Should appear white screen 2.Should appear OLPC logo and play OLPC start-up music 3.After few seconds should appear circle of DOTS and centre of the circle should have a arrow 4.Should appear FEDORA REMIX logo around the corner of the right side down 5.	1			
2. Verify the boot success for XO-1 with GNOME										
2.1. Verify the plugging external items and boot										

BOT_2.1.1	FUN	Verify the boot with plug some external items (Ex: Keyboard, Mouse, USB, Dongle, power)	1.OLPC must be power off	1.Plug the external items 2.Press power button	Verify the plugging external items and boot for XO-1 with GNOME	System should behavior as mentioned in the validation table expected result.	6			
2.2 Verify without plugging external items and boot										
BOT_2.2.1	FUN	Verify the boot without plug any external items (Ex: Keyboard, Mouse, USB, Dongle, power)	1.OLPC must be power off 2.OLPC battery must be charged	1.Press power button		1.Should appear white screen 2.Should appear OLPC logo and play OLPC start-up music 3.After few seconds should appear circle of DOTS and centre of the circle should have a arrow 4.Should appear FEDORA REMIX logo around the corner of the right side down 5.	1			
2.3 Verify switching to the GNOME										
BOT_2.3.1	FUN	Should switch to the GNOME from sugar UI if pressed "restart now" from the confirmation window	1.OLPC should power on 2.OLPC should in sugar UI (ACTIVITY RING)	1.Right click on OLPC logo (centered icon in activity ring) 2.Select "Control Panel" then it will navigate to the control panel 3.Select "Switch desktop" then it will navigate to the switch desktop window 4.Select "Switch to GNOME" then it will navigate t		1.Should navigate to the GNOME desktop	1			
2.4 Verify the shut down from GNOME and power on back to the GNOME										

BOT_P2.4.1	FUN	Verify the OLPC shut down from the GNOME and when power on should directly come to the GNOME	1.OLPC must be in GNOME	1.Select "System" then appear drop down menu 2.Select "Shut Down..."then appear confirmation window 3.Select "Shut Down" button 4.Press power ON button		1.Should shut down the OLPC 2.Should appear white screen 3.Should appear OLPC logo and play OLPC start-up music 4.After few seconds should appear circle of DOTS and centre of the circle should have a arrow 5.Should appear FEDORA REMIX logo around the corn	1				
2.5 Verify switching to the Sugar											
BOT_2.5.1	FUN	Verify the OLPC switch from GNOME to sugar	1.OLPC must be in GNOME	1.Select "Switch to sugar" then appear switch desktop pop-up 2.Press "OK" button		1.Should appear black screen with white letters 2.Should appear white screen 3.Should appear OLPC logo 4.Should navigate to the ACTIVITY RING	1				
3. Verify the boot success for XO-1.5 with GNOME											
3.1. Verify the plugging external items and boot											
BOT_3.1.1	FUN	Verify the boot with plug some external items (Ex: Keyboard, Mouse, USB, Dongle, power)	1.OLPC must be power off	1.Plug the external items 2.Press power button	Verify the plugging external items and boot for XO-1.5 with GNOME	System should behavior as mentioned in the validation table expected result.	6				
3.2 Verify without plugging external items and boot											

BOT_3.2.1	FUN	Verify the boot without plug any external items (Ex: Keyboard, Mouse, USB, Dongle, power)	1.OLPC must be power off 2.OLPC battery must be charged	1.Press power button		1.Should appear white screen 2.Should appear OLPC logo and play OLPC start-up music 3.After few seconds should appear circle of DOTS and centre of the circle should have a arrow 4.Should appear FEDORA REMIX logo around the corner of the right side down 5.	1			
3.3 Verify switching to the GNOME										
BOT_3.3.1	FUN	Should switch to the GNOME from sugar UI if pressed "restart now" from the confirmation window	1.OLPC should power on 2.OLPC should in sugar UI (ACTIVITY RING)	1.Right click on OLPC logo (centered icon in activity ring) 2.Select "Control Panel" then it will navigate to the control panel 3.Select "Switch desktop" then it will navigate to the switch desktop window 4.Select "Switch to GNOME" then it will navigate t		1.Should navigate to the GNOME desktop	1			
3.4 Verify the shut down from GNOME and power on back to the GNOME										

BOT_P3.4.1	FUN	Verify the OLPC shut down from the GNOME and when power on should directly come to the GNOME	1.OLPC must be in GNOME	1.Select "System" then appears drop down menu 2.Select "Shut Down..."then appears confirmation window 3.Select "Shut Down" button 4.Press power ON button		1.Should shut down the OLPC 2.Should appear white screen 3.Should appear OLPC logo and play OLPC start-up music 4.After few seconds should appear circle of DOTS and centre of the circle should have a arrow 5.Should appear FEDORA REMIX logo around the corn	1				
3.5 Verify switching to the Sugar											
BOT_3.5.1	FUN	Verify the OLPC switch from GNOME to sugar	1.OLPC must be in GNOME	1.Select "Switch to sugar" then appear switch desktop pop-up 2.Press "OK" button		1.Should appear black screen with white letters 2.Should appear white screen 3.Should appear OLPC logo 4.Should navigate to the ACTIVITY RING	1
