How to Customize Your XO

Product Manager Greg Smith
Learning & Tech Assistant Julia Reynolds

ONE LAPTOP PER CHILD

Upgrading the XO

- The latest stable build is on the wiki home page. When a new major release is available it will be announced widely
- For a list of the latest stable image and timeframe of the next image see: <http://wiki.laptop.org/go/Releases>
- Once you have a base image you need to choose the additional activities to include with it.
- Place on a USB key
- Customize with a Key
 - http://wiki.laptop.org/go/Customization_key

Upgrading the XO

1. Insert USB key with build
 2. Hold down four game keys + power button
 3. Wait for the XO to automatically reboot
 4. The XO will automatically turn off, take out the USB key and turn it back on
 5. Check build with ctrl-alt-
- or: Home view menu, click “About this XO”

Changing the Language
