

How to Use olpcMAP?

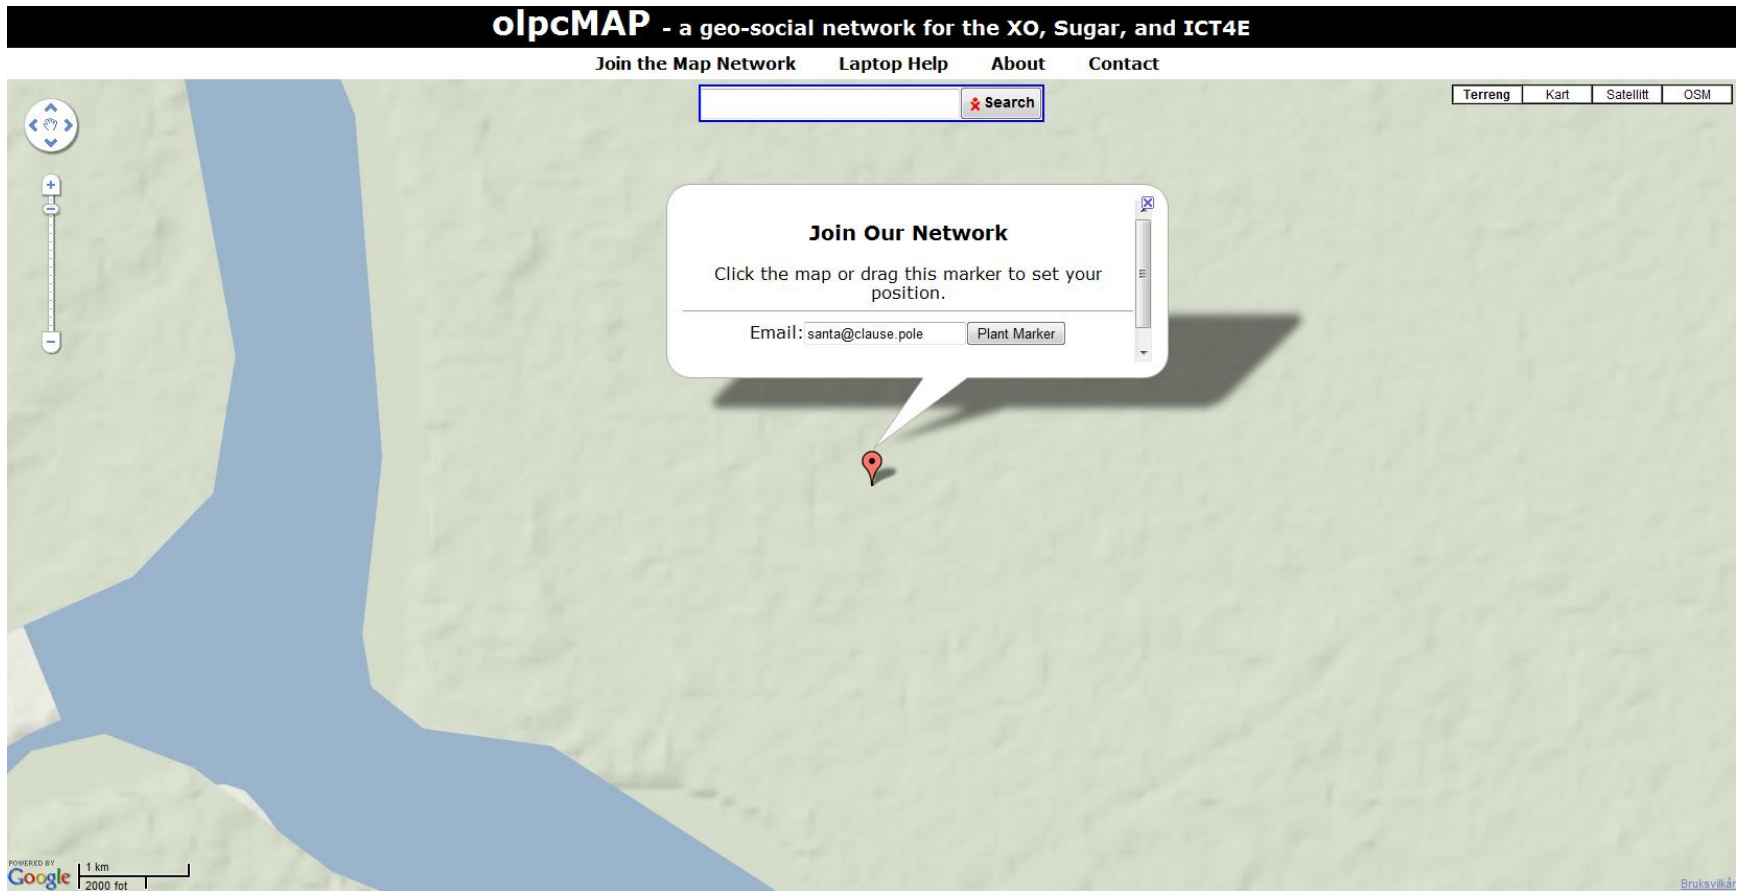

How to plant marker!

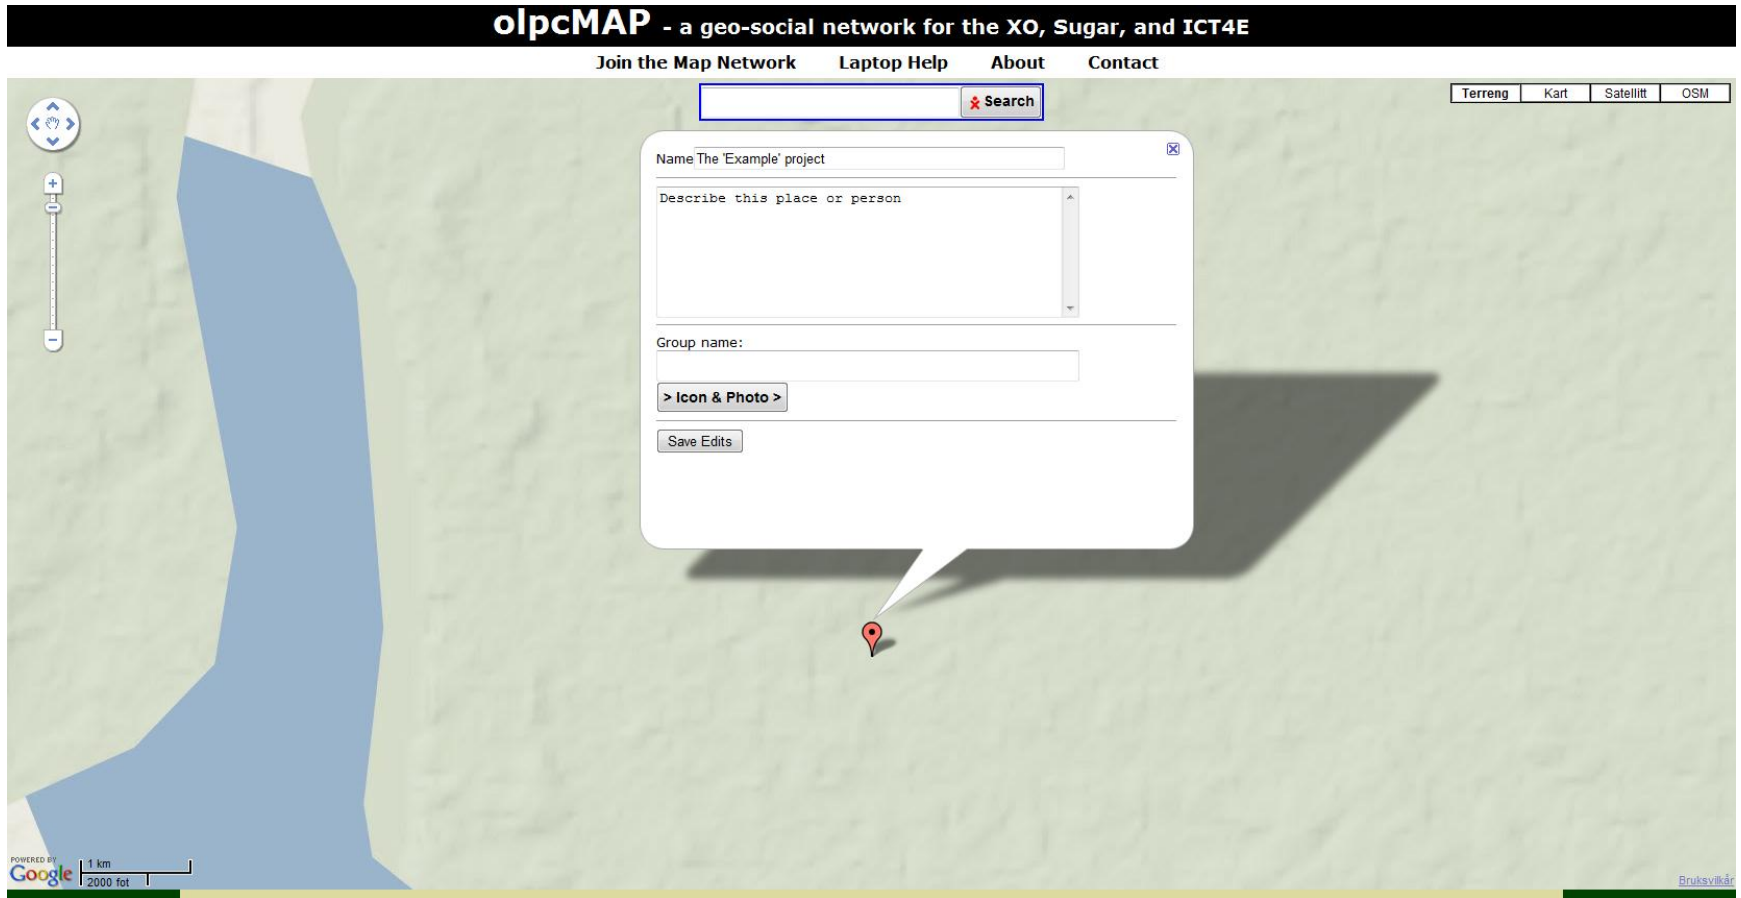

1. The marker shows your location. To place a marker for your project, zoom in, or use the search function to find your location.
2. Next click on the 'Join the Map Network'.

How to plant marker!

3. If you want to you can move the marker to the correct location, just click and hold to move the marker. You will not be able to move the marker after you have clicked on the box marked 'Plant Marker'.
4. If you make more markers than you need, simply restart the map, and the markers will disappear. Type your e-mail address in the box, then click 'Plant Marker'.

How to assign name and description

1. Type in the name of the project.
2. Directly below you can type a short description and project leader or participants of your project.
3. In the bottom box where it says 'Group name', you can type in your groups name for example 'Olpc Asia'.

How to assign an icon and a photo to your project

1

one laptop per child

The screenshot shows the olpcMAP web interface. At the top, there is a navigation bar with the text "olpcMAP - a geo-social network for the XO, Sugar, and ICT4E" and links for "Join the Map Network", "Laptop Help", "About", and "Contact". Below this is a search bar with a "Search" button. The main area is a map with a blue water feature on the left. A popup window is open over a red location pin on the map. The popup contains the following fields and buttons:

- Name: The 'Example' project
- Describe this place or person: (text area)
- Group name: (text field)
- > Icon & Photo > (button)
- Save Edits (button)

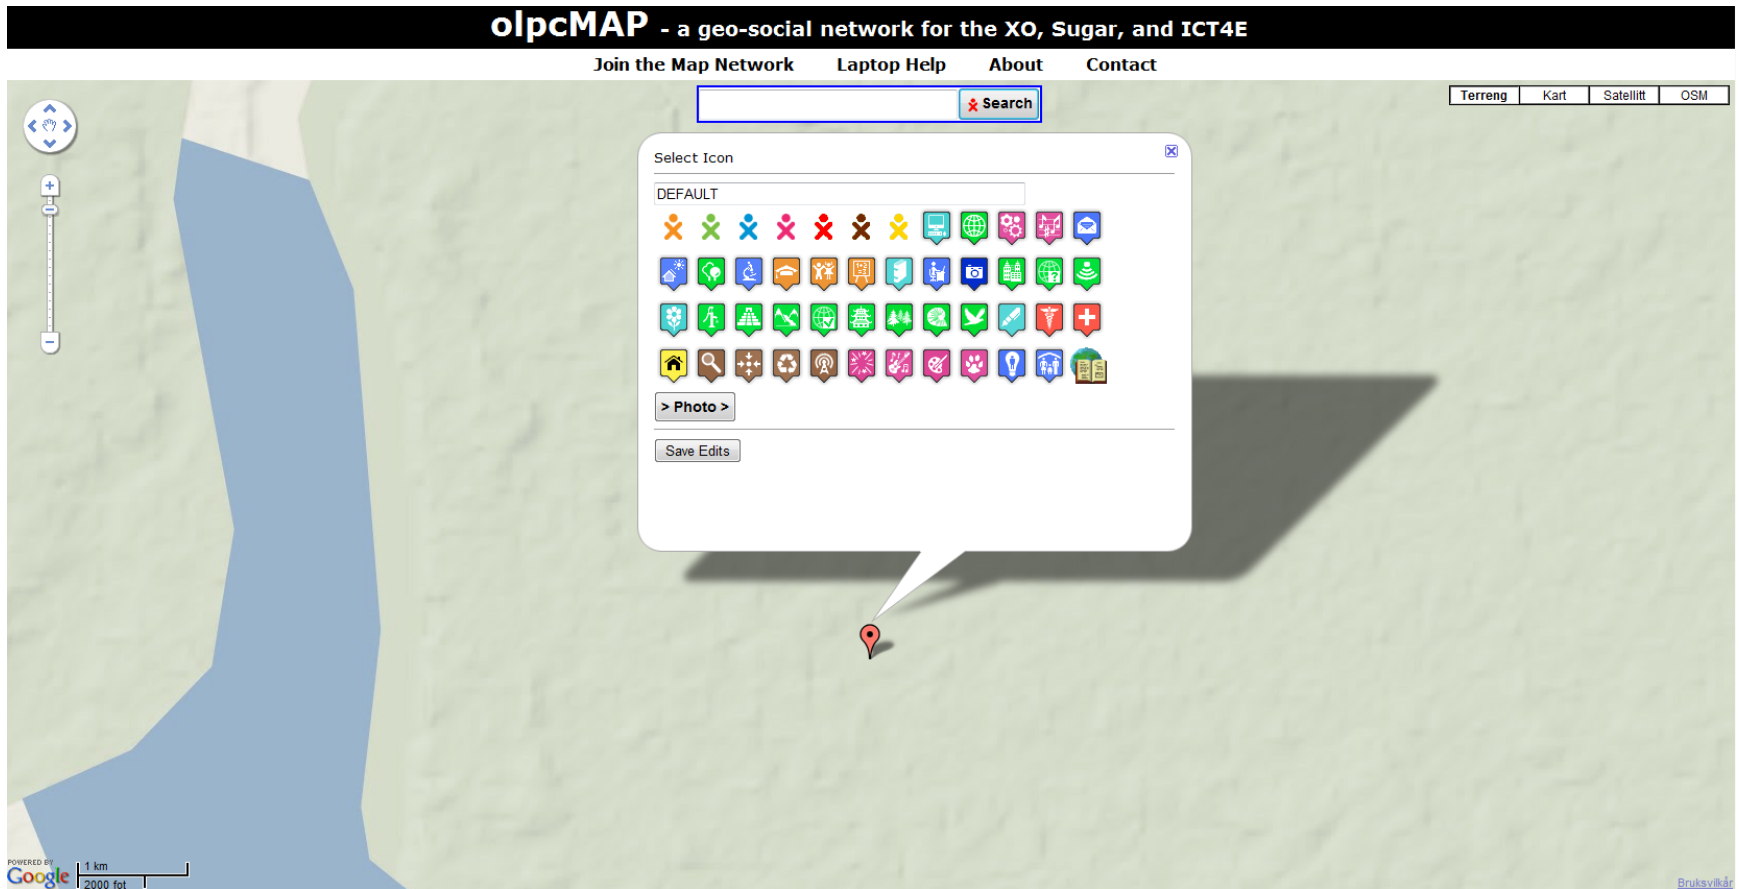

At the bottom left, there is a "POWERED BY Google" logo and a scale bar showing 1 km and 2000 feet. At the bottom right, there is a "Bruksvillan" logo.

1. Press 'Icon & Photo' to assign an icon and a photo from your computer or from a webpage.

2. Click the icon that best describes your project, then click 'Photo' to add a photo.
 - If you are a person, and not a project you can use the 'xo-logos' with your favourite color 😊.
 - If you are a community project, you can use the community project logo, and so on.

9. You have now created a marker with information about your project. To view the information you have entered click your 'icon' to open the description.

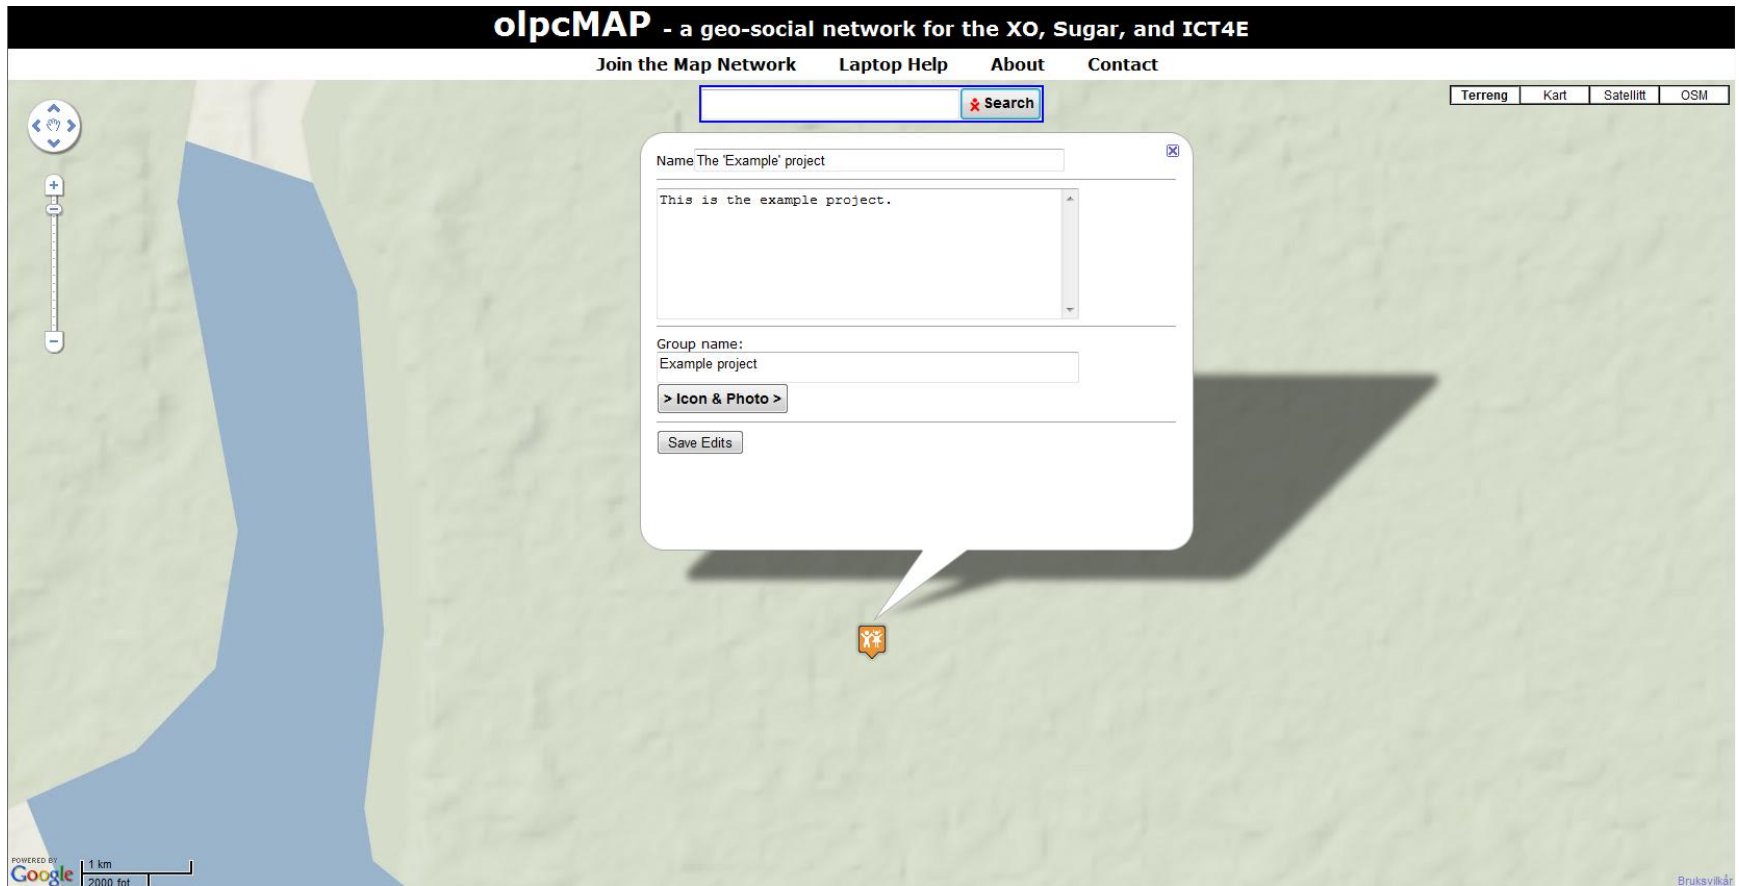

How to edit your project information

The screenshot shows the olpcMAP website interface. At the top, the header reads "olpcMAP - a geosocial network for Sugar and the XO" with social media icons for Facebook and Twitter. Below the header is a navigation menu with links: "Join the Map Network", "Laptop Help", "News", "About", and "Contact". A search bar with a "Search" button is positioned to the right of the navigation. The main content area features a map with a blue water body on the left. A popup window is open over a map marker, displaying project information for "The Example project". The popup includes links for "Bookmarks", "Contact", and "Edit". Below the title, it says "From Example project" and provides a link to the project: "This is the example project. Link to olpc: <http://www.olpc.org>". An image of a koala is shown to the right of the text. The map includes a scale bar (1 km / 2000 fot) and a "POWERED BY Google" logo. The text "Bruksvård" is visible in the bottom right corner of the map area.

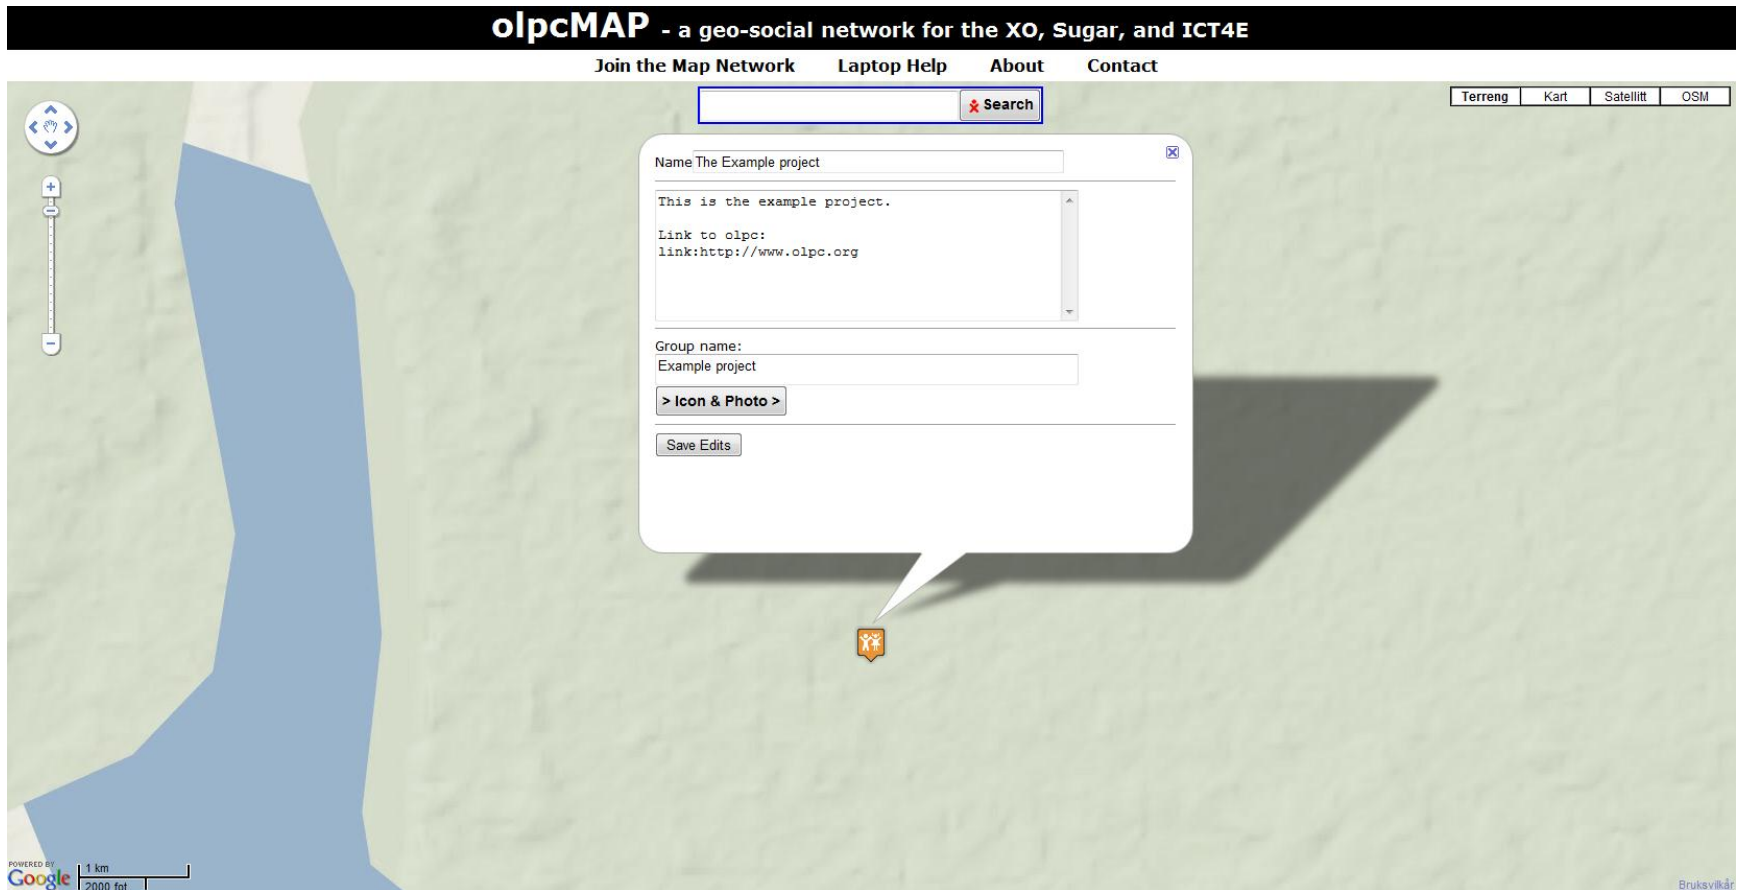

1. Click 'Edit' to change or add project information.

How to edit your project information

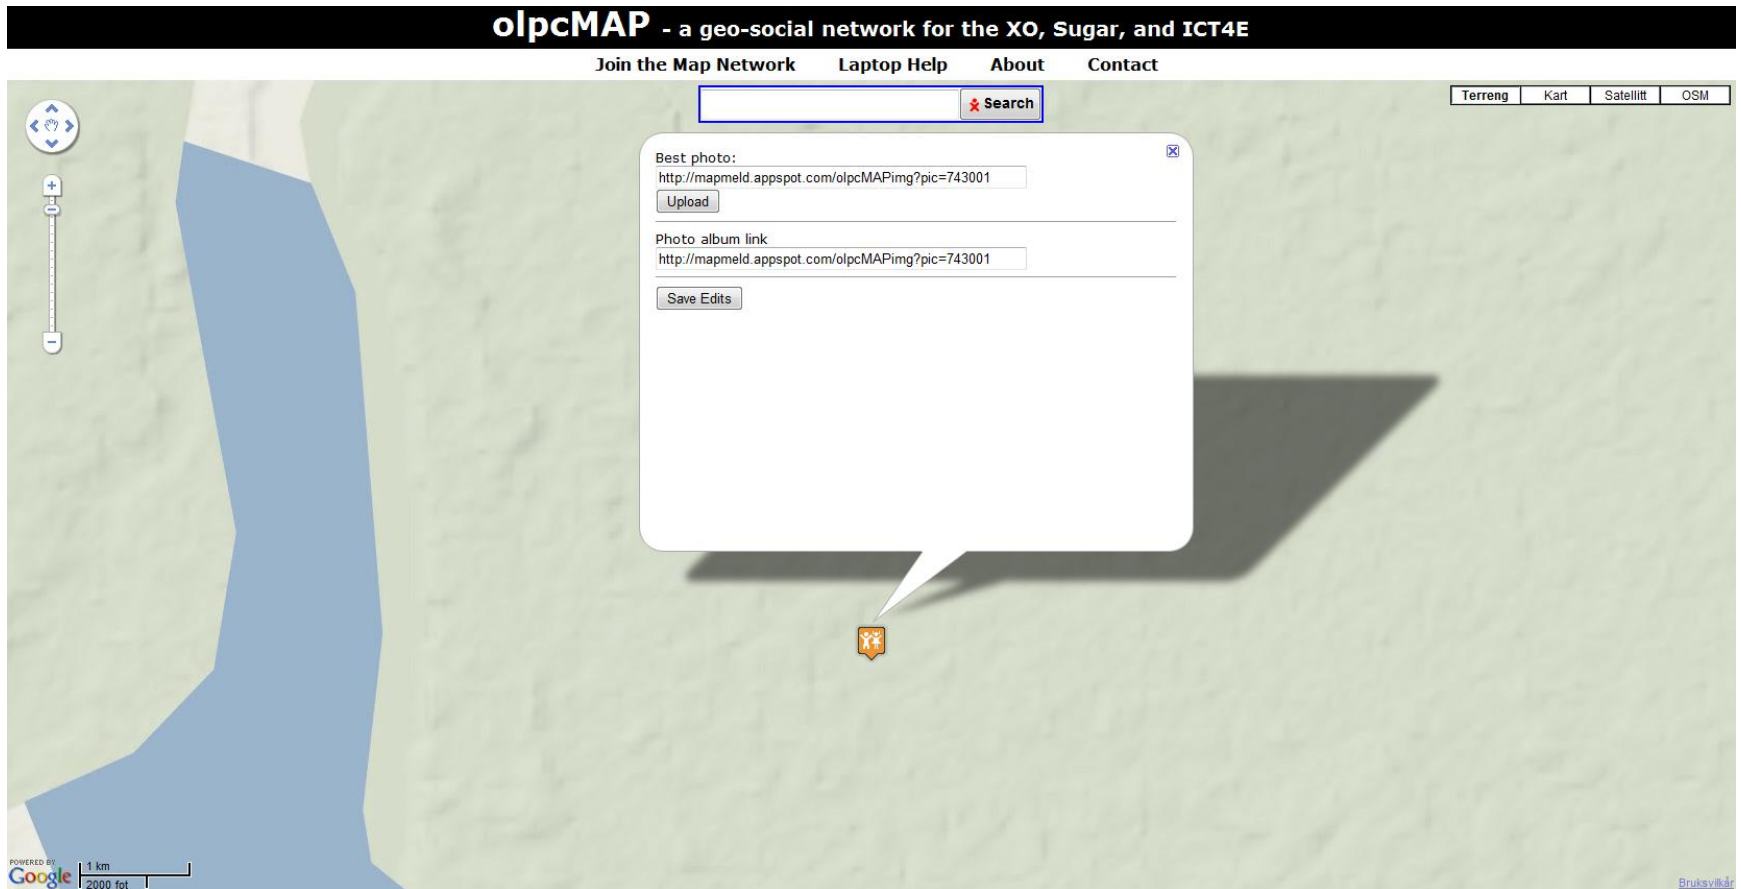

2. You can now edit project information, or add a new photo. When you are finished, click 'Save Edits' to save the changes.

How to add a weblink to your front page

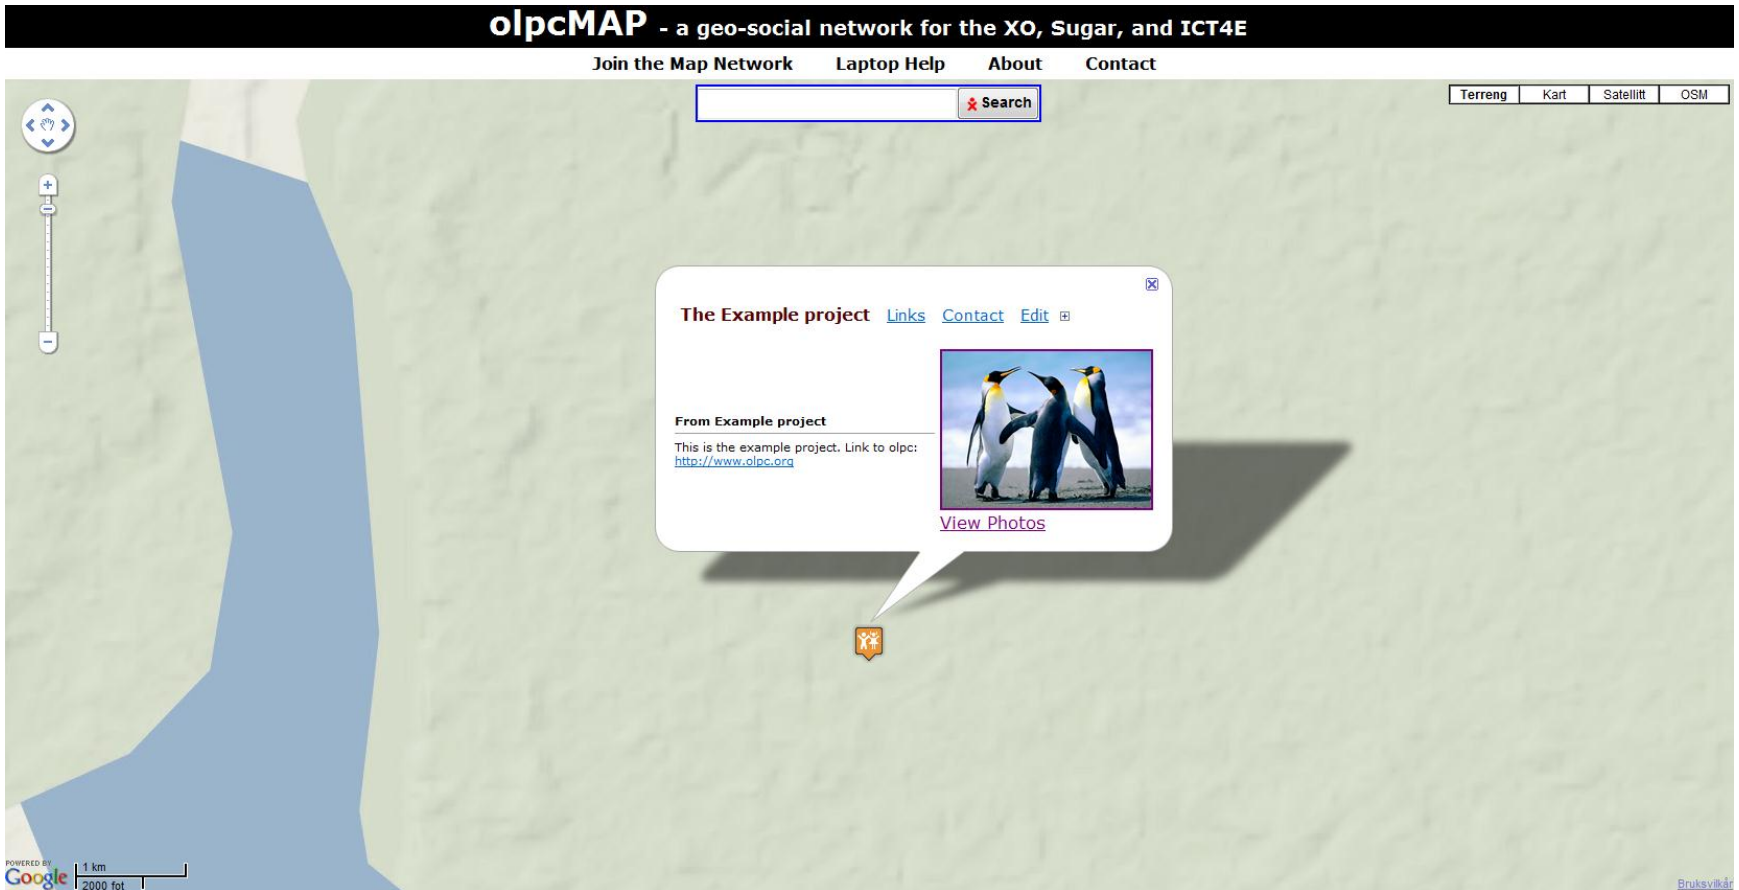

1. Click on your project. Then click 'Edit'.
2. To add a link to another webpage, uploaded videos or other types of media, type in the link in the same format as in the box above. (Example: link:<http://www.olpc.org>)
3. Then click 'Save Edits'
4. The link will appear the next time you click on your marker.

How to add a link to a photo album

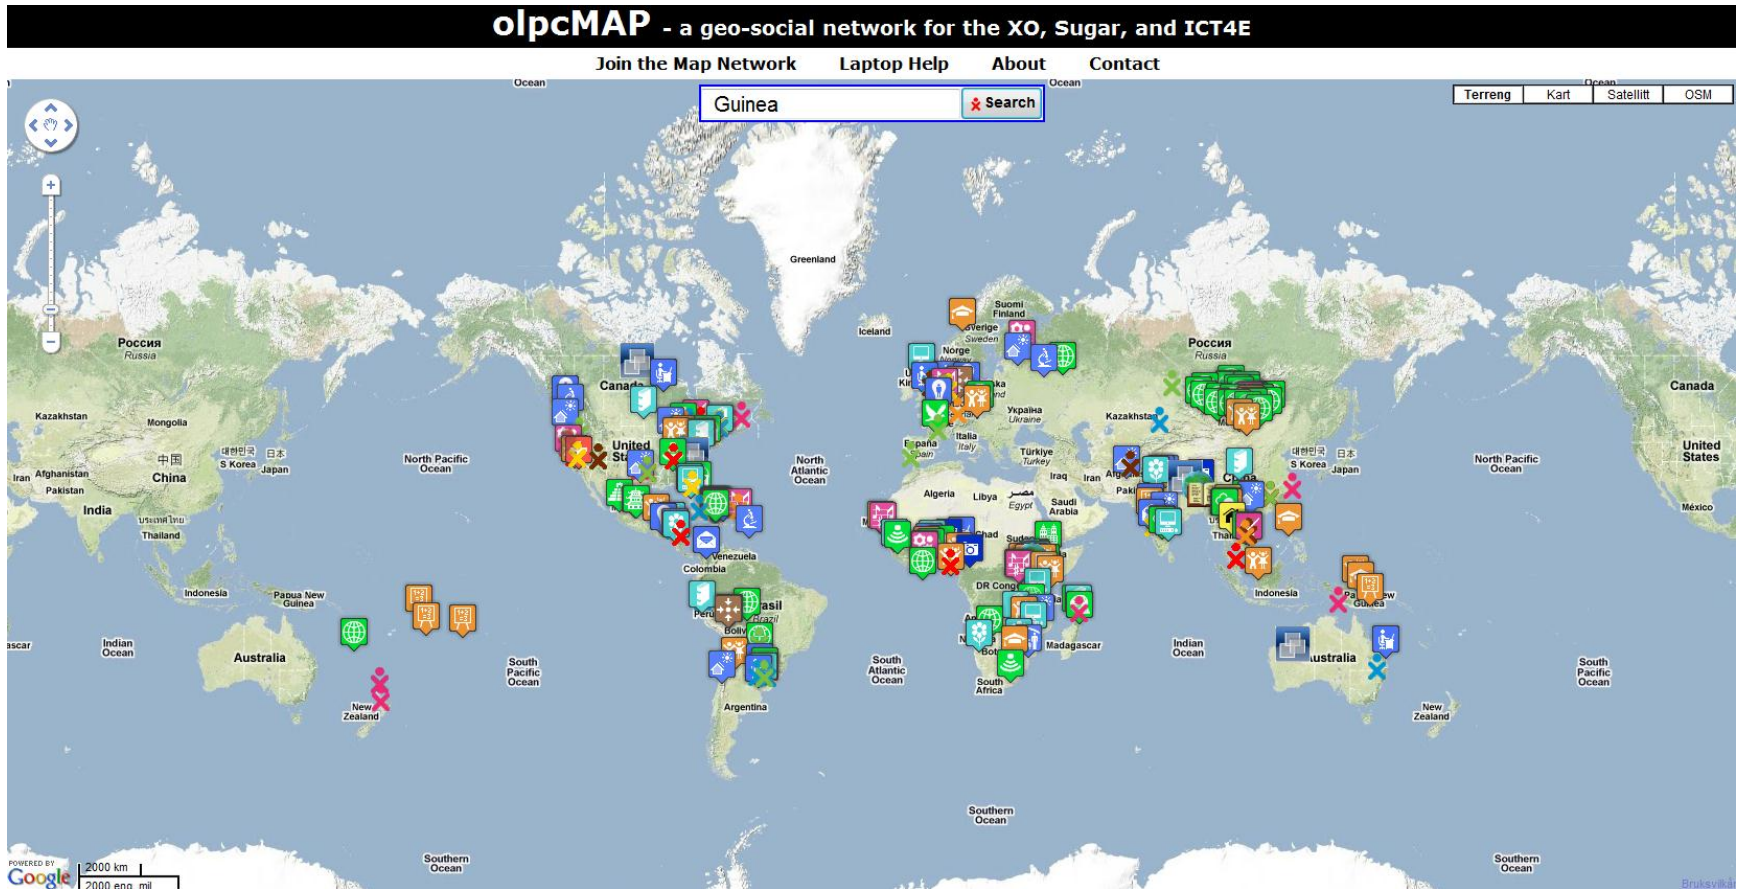

1. Click, on your project. Then click 'Edit'.
2. Click 'Icon & Photo', then click 'Photo'
3. Type in the link to the photo album in the box marked 'Photo album link'.
4. Then click 'Save Edits'

How to add a link to a photo album

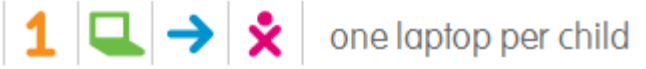

5. The next time you enter your front page you can click the 'View Photos' link to access the photo album.
6. If you would like a place to publish your photos there are several providers who will let you do this, free of charge providing you create an account at their website.
Examples of these are: <http://www.flickr.com>, <http://zoomr.com>, <http://picasa.google.com>

How to search for other projects or persons

1. In the searchbox on top center of the map, type in either project, person or region/country you want to search for, then click the 'Search' button beside it.
2. For example, if you would like to look for projects working on solar power just type in 'solar' in the search box, hit 'Search' and all the projects working on solar will appear (as described in the nex slide).

3. When you type in location and search for it, the map will zoom to the location you entered.
4. On the left side of the map a box will appear.
5. Now you can click on the desired location to get to the project or person you were looking for.

How to search for other projects or persons

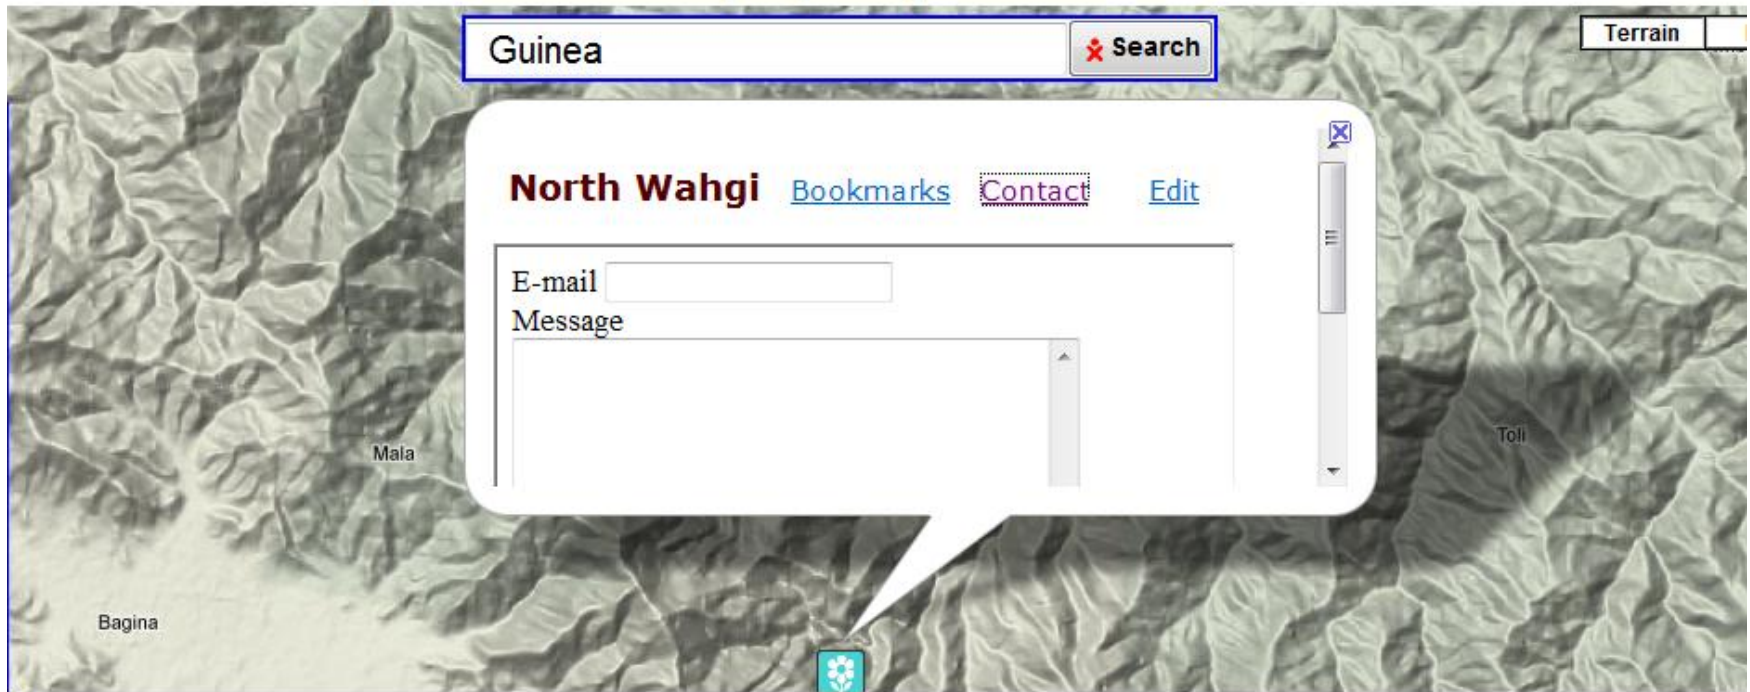

The screenshot shows the olpcMAP interface. At the top, there's a navigation bar with links: "Join the Map Network", "Laptop Help", "About", and "Contact". Below this is a search bar containing "Guinea" and a "Search" button. To the right of the search bar are map style options: "Terreng", "Kart", "Satellit", and "OSM". On the left side, there's a sidebar with a "Close" button, a "Choose a result" section, and two main sections: "Groups" and "Points". Under "Groups", there's a link for "OLPC Papua New Guinea". Under "Points", there are links for "Xavier Carcelle", "North Wahgi", "Gaire", and "Dreikikir". The main map area shows a topographic view of a region with an orange location marker. A popup window is open over this marker, titled "North Wahgi" with links for "Links", "Contact", and "Edit". The popup content includes "From OLPC Papua New Guinea" and "250 XO laptops funded by PNGSDP", accompanied by a small photo of a person working with children at a desk.

6. The map will again zoom to the location you entered.
7. Now you can click on the desired location to get to the project or person you were looking for.
8. This is a nice way of getting in contact with other people and projects. By searching for other people and projects you can find new penpals and start collaboration across the borders with other olpc projects. 😊

9. You can contact anyone on the map by clicking Contact button on their marker, typing your email address in E-mail box and message below. When finished, click Send button at the end of the message box.

Other information about the olpcMAP

- If you need help to use your laptop, click the 'Laptop Help' button on top of the map.
- If you want to read about who created the olpcMAP click the 'About' button.
- If you want to contact the team which is working on developing the olpcMAP, click the 'Contact' button, and type in your e-mail address and your message.
- Bookmarks are links to your points on the map.
- If you click on either one of these buttons  on top of the map you can go to the facebook or twitter page for olpcMAP.
- Please keep coming back to the olpcMAP world for future updates and improvements in the near future...
